

UNBEATABLE CORROSION RESISTANCE FOR YOUR FITTINGS

UNIFLEX has developed UNICOAT, a new generation Zinc Plating technology based on trivalent nano passivation and inorganic top coat delivering significantly higher level of corrosion resistance on carbon steel fluid conveyance products.

Parts plated with UNICOAT technology give longer than expected life, lower maintenance and improves appearance of equipment

www.myuniflex.com

UNICOAT plated parts are tested in accordance with ASTM B117-03 and UNI ISO 9227 standards exceeding 500 Hours corrosion prevention in Salt Spray Fog to White Rust and 1000 Hours corrosion prevention to Red Rust far exceeding SAE J514 requirements.

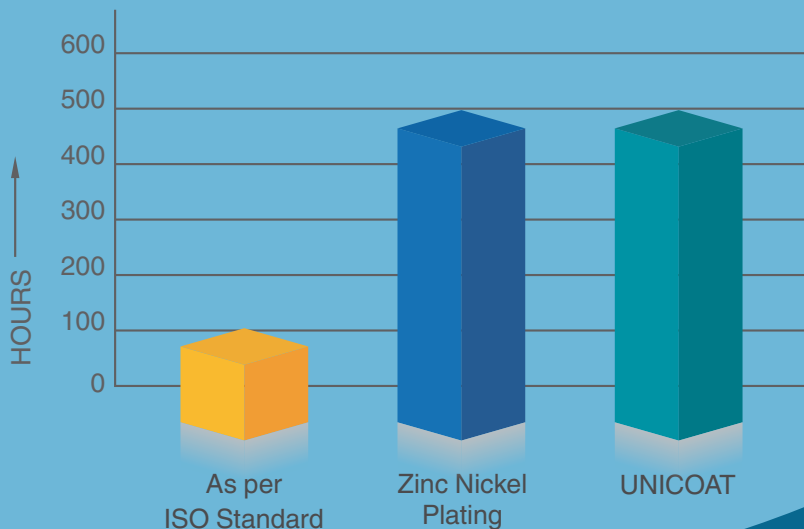

Results after 500 Hours to N.S.S. Test

UNICOAT

Competitor

UNIFLEX – UNICOAT delivers the following:

- » Longer expected life
- » Improved appearance
- » Lower maintenance cost
- » Reduced downtime
